

# The 21<sup>st</sup> Hands-on Exercise for International Students

## Assembly/Disassembly of Internal Combustion Engine

13:00-17:00, December 22, 2021 at Creation Plaza and Akasaki Workshop

Number of the participants... 4 students of Mechanical Engineering

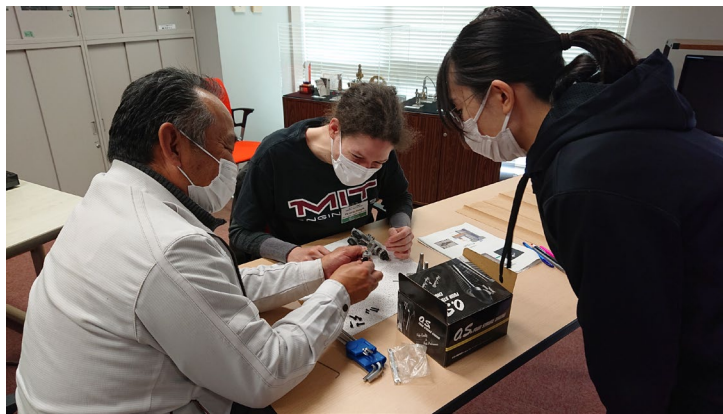

Countries of the participants... Korea, Ecuador, Canada and Philippine

Lecture

Demonstration

Assembly & Disassembly

Performance Test

Jet engine Demonstration

It was explained in a simple way, with enough diagrams, animations, and real models.

I well understood the engines what we've learned in the lecture.

The short lectures before assembling the engine were helpful to understand the concept.

I really enjoyed the course! Thank you very much for offering it!

The jet engine demonstration was really cool!

And it was fun to experience was the thrust really felt like!
